

Lilith Woon, RN, BSN, CNOR

Venice, CA | firstlast@email.com | 111-222-3333

CNOR-certified registered nurse with 10 years of clinical experience, including 5 years in perioperative care and 5 years in medical-surgical nursing. Specialized in orthopedic surgery. Acknowledged for training and orienting over 100 new nurses.

Key Qualifications

- Extensive clinical experience across orthopedic perioperative care and medical-surgical nursing.
- Expert in operating room procedures, intraoperative support, and workflow coordination.
- Mentored and precepted over 100 newly-hired staff members, providing hands-on training in sterile field setup, surgical instrumentation, and patient safety protocols.
- Developed a continuing education training module that helped improve new nurse competency scores by 40% during orientation.
- Completed over 240 hours of continuing education in surgical care, in addition to mandatory requirements.
- Presented at the regional nursing conference on best practices in perioperative orthopedic nursing.

Education

UCLA University, Los Angeles, CA, 20XX

Bachelor of Science in Nursing

GPA: 3.9/4.0

Professional Experience

Venice Hospital, Operating Room Nurse, 20XX–present

- Assist surgeons during complex orthopedic operations, anticipating surgical needs and managing instruments efficiently to minimize procedure time.
- Coordinate surgical team workflow, optimizing OR efficiency and reducing average turnover time by 15%.
- Ensure strict adherence to infection control and sterile technique protocols, resulting in zero reported surgical site infections over the past 12 months.
- Precept and mentor new perioperative nurses during orientation, providing hands-on guidance in surgical procedures, sterile field management, and patient advocacy.

Pasadena Hospital, Medical Surgical Nurse, 20XX–20XX

- Managed complex patient care in a high-acuity medical-surgical unit, monitoring vital signs, administering medications, and coordinating multidisciplinary care.

- Implemented patient education programs that improved adherence to treatment plans and reduced readmission rates.
- Coordinated care plans for complex cases, collaborating with physicians, therapists, and social workers to improve patient outcomes and reduce complications.
- Participated in quality improvement initiatives, contributing to a 10% increase in patient satisfaction scores.

Nursing Home of Hope, Certified Nursing Assistant, 20XX–20XX

- Provided direct patient care, including assistance with activities of daily living, mobility, and hygiene for a diverse geriatric population.
- Supported nursing staff with documentation, vital signs monitoring, and implementing individualized care plans.
- Developed rapport with residents and families, improving overall resident satisfaction and engagement.
- Assisted in the implementation of fall prevention and safety protocols, reducing resident incidents by 20% over one year.

Skills

- Sterile technique, infection control, and OR safety protocols
- Intraoperative monitoring and medication administration
- Equipment preparation and surgical room setup
- Language comprehension: English and Japanese
- Software proficiency: Epic and Cerner
