

Nuclear Med Tech

Job Description Template

Ready for the next exciting next step in your healthcare career? Here at *[facility name]*, we're looking to hire a nuclear medicine technician to join our oncology team. Recognized as the *#1 Cancer Treatment Center in Arizona*, we're proudly committed to delivering high-quality patient care every day and making a positive impact on the lives of those we serve.

As a new member of our staff, you'll work five 8-hour shifts per week in our outpatient radiology department, supporting diagnostic and treatment efforts within a collaborative, supportive multidisciplinary team. Qualified candidates will have a strong sense of safety and attention to detail.

If this sounds like the career-building opportunity you've been waiting for, continue reading as we outline the duties, responsibilities, and scheduling expectations for the position.

Benefits

- FSA/HSA options
- 401(k) matching
- Low-cost healthcare, dental, vision, and life insurance
- Generous paid vacation/holiday/family/sick leave
- Free continuing education (CE) courses
- Tuition reimbursement of up to \$4,000 per year
- Discounts for local restaurants, gyms, and amusement parks
- Free employee parking

Duties and Responsibilities

Nuclear medicine technicians at our organization are expected to perform the following duties:

- Safely prepare and administer radioactive drugs to patients
- Operate, maintain, and troubleshoot diagnostic testing machines
- Document results of the nuclear procedure in the electronic health record (EHR)
- Follow hospital safety procedures to keep employees and patients free from hazardous radiation exposure
- Explain procedures and their potential side effects to patients and their family members

Compensation and Shifts

- Starting salary of \$85,000, with adjustments subject to education level and relevant leadership experience
- Annual salary step increases are offered after strong employee performance reviews
- 5 scheduled 8-hour day shifts (8a-4p) per week
- 1 late-stay shift per week and 2 weekend shifts per month
- Bi-weekly or weekly pay schedule

Qualifications and Skills

Required Qualifications:

- Associate's degree in nuclear medicine technology
- Certified Nuclear Medicine Technologist (CNMT) certification and/or American Registry of Radiologic Technologists (ARRT)
- BLS and ACLS certified

Preferred Qualifications:

- Bachelor's degree in nuclear medicine technology
- 2+ years of nuclear medicine tech experience
- Bilingual in English and Spanish
